

News Release

February 17, 2023

Temiskaming Transit is excited to announce Voyago will commence Transit Operations effective February 21, 2023. The Transit Fleet is fully functional and the Voyago Team is ready to serve the community. Week one will be overall transition to Voyago Operations with the goal of full service by the end of the month.

Voyago has 43 years of public transit experience and provides several Conventional, Specialized (Accessible), and On-Demand Services throughout Ontario and beyond. Please join us in a warm welcome to Voyago!

It is clear, transit service is vital to our communities, and we thank everyone for their patience and understanding during the service transition and sincere appreciation to DK's Taxi and the Voyago Team for devoting service during the past several weeks to provide an interim solution. The commitment shown by all during the difficult transit transition is valued.

In recognition of the full-service disruption, all fares will be reduced to \$2 for the period of February 27 – March 19, 2023. Individuals who purchased a monthly pass in either January or February will be provided a free one month pass. Monthly pass holders must contact City Hall at 705-672-3363 to obtain the free pass.

Please note: in an effort to be responsive and fiscally responsible, an updated peak demand operation schedule has also been established. The route will remain status quo and an updated grid schedule will be released soon.

Highlights of the changes, route maps, payment portal and Transit Tracker App are all found on the City of Temiskaming Shores website at temiskamingtransit.ca Or by scanning the QR Code below. Please consider subscribing to the Transit Page for Updates
