

## ***POLICY***

The Corporation of the City of Temiskaming Shores is committed to providing consumers with safe drinking water.

The City commits to complying with all applicable legislation and regulations.

To further enable this commitment, the City has developed, implemented, and will maintain a Quality Management System in conformance with Ontario's Drinking Water Quality Management Standard.

The City will regularly review its Quality Management System through monitoring and measurement activities, and commits to continually improving the system as it evolves alongside the community it serves.

The City will strive to keep consumers aware and informed of significant decisions and occurrences through transparent and accountable operation of its drinking water system.
